Harvest prayer

*We thank you, Lord, for our harvest.
We thank you for the warm sun, the sustaining rain, the rich soil and the hard-working farmers.
And we thank you for blessing our tables with the fruits of the land, so that we may be nourished
and satisfied.*

*We give gifts today, Lord, so that others may know Your bountiful harvests.
We remember those in Africa who are hungry, poor and ill.
And we remember those in Africa whose hearts are heavy with worry and pain.*

*We pray for African farmers – that they may feel the sun on their faces and rich earth crumbling in
their hands.*

*We pray for African parents – that they may provide for their families and see them grow up
healthy, hopeful and happy.*

*And we pray for African children – that they may know love and no longer feel the ache of hunger
or the despair of poverty.*

*Father, please watch over all your children, here and in Africa.
Please comfort and support, heal and lift up.
And please plant in us all the seeds to reap harvests of Your love, Your compassion,
and Your charity.*

Amen
